

Final Project (Mandatory)

- Extension experiments of midterm project
- Methods (2 mandatory algorithm)
 - Must Use Weka
 - MLP (used in midterm)
 - SVM or Decision Tree (mandatory)
- If you just use 2 mandatory algorithm (MLP and one more) and make reasonable result, you get default point.

Final Project (Optional)

- Methods (1 more optional algorithm)
 - Must Use Weka
 - One arbitrary algorithm in weka
- Optional issue
 - Proper arbitrary algorithm for data
 - Proper preprocessing for data
 - Dataset used in midterm project
- If you are interested in this project, you could try optional issue and you get bonus point.

Final Report

- Final report and presentation
 - Submit report
 - About: Design your problem
 - Include
 - Introduction
 - Problem definition
 - Dataset
 - Preprocess (optional)
 - Methods
 - Experimental results and comparison
 - Discussion
- Due date: 2013. 06. 10. PM 23:59
- Submit by email (slee@bi.snu.ac.kr)
